

# 3,000 Six Page Best Value Questionnaire Scanned & Processed In Just 3 Days!

Local Authorities no longer have to struggle with their citizen's panel and best value consultations. DCC have made it easy for Local Authorities to carry out all types of consultations by taking away problems associated with questionnaires, such as data entry, printing and distribution - saving them huge amounts of time and resources.

"Brent Council Consultation Team have undertaken postal surveys as part of the Best Value review process for a number of service delivery areas within the Council.....We were facing the daunting task of inputting responses from almost 3,000 six-page questionnaires.

DCC undertook this task and turned around a job that would have ordinarily taken several weeks, in just **three days**.

The entire process was quick, efficient, accurate and very cost effective. The finished data set supplied by DCC enabled us to complete the survey analysis and produce a report for our clients well within the agreed timescale.

We are extremely pleased with the service from DCC and will certainly be looking to working closely with them in this area of our work in the future."

Owen Thompson  
London Borough of Brent
